## TO WHOMSOEVER IT MAY CONCERN

This letter is to acknowledge the efforts of Dev Sinha, who has been volunteering with Sparsh Hospice, project of Rotary Club of Banjara Hills Charitable Trust. He has been consistent volunteer in supporting extending palliative care services to terminally ill people.

Dev has also taken the initiative to build the Hospice Management System for Sparsh. A custom system needs to be developed, as commercial software for Hospice Management System is not available for Indian operations and regulations. Dev is doing the requirements gathering, design and development of the system. The development of the system is in progress, and is scheduled to be completed by Q1 2023. Dev has built a volunteer team to help develop this system.

We would like to thank Dev for his work. We have been very pleased with his dedication and sincerity.
